Professional Aspirations:

I am interested in gaining valuable experience working in close relation with industry professionals, and developing my skill set to include modern techniques for advanced problem solving.

Skills:

- Proficiency in C++, Java, Python, Lua, Oracle SQL.
 - Some experience with Javascript, HTML, CSS.
 - Entry level knowledge of UNIX / GNU.
 - Experience working through SSH clients.
 - Certified with Autodesk AutoCAD, experience in other Autodesk products such as Inventor.
 - Proficiency with many Microsoft Office products, such as Excel and Word.
 - Entry level knowledge of IBM SPSS Statistics and R Statistical language.
-

Work Experience:

- August 2017 - Present: Undergraduate Teaching Assistant at Hunter College
 - Experience explaining and helping debug Python and C++ code, as well as general computer science concepts in a friendly, team-based learning environment.
-

Education:

- Pursuing BA in Computer Science at Hunter College
- Completed Minor in mathematics, pursuing minors in both Logic and Statistics.
- Senior level completion of software analysis and design, computer architecture, and operating system courses.
